

10 Best Social Media Advanced Search Methods

If you've ever tried searching for information on social media platforms, you may have noticed that the results are often unsatisfactory. Luckily, there are several **social media advanced search methods** that can help you dig deeper and find more precise information.

Did you know that many of these tools offer **free social media searches**? Whether you're trying to reconnect with an old friend, locate a former coworker, or find information about a topic of interest, these methods can greatly enhance your search.

1. Google Advanced Search

Google Advanced Search allows for a more refined search experience using advanced operators — special characters and commands that go beyond the basic Google search capabilities.

How to Use Google Advanced Search:

- Visit **Google's advanced search**.

- Type the person's name into the "This particular term or phrase" box.
- After adding language and country filters, select "Advanced Search."
- The required data will appear almost immediately.
Press enter or click to view image in full size

Advanced Search

Find pages with...

all these words:		To do this in the search box:	Type the important words: tri-colour rat terrier
this exact word or phrase:	enter the username here	Put exact words in quotes: "rat terrier"	
any of these words:		Type OR between all the words you want: miniature OR standard	
none of these words:		Put a minus sign just before words that you don't want: -rodent, -"Jack Russell"	
numbers ranging from:	to	Put two full stops between the numbers and add a unit of measurement: 10..25 kg, £300..£500, 2010..2011	

Then narrow your results by...

language:	any language	Find pages in the language that you select
region:	any region	Find pages published in a particular region.
last update:	anytime	Find pages updated within the time that you specify.
site or domain:	you can enter the desired dating site/social media site here	Search one site (like wikipedia.org) or limit your results to a domain like .edu, .org or .gov
terms appearing:	anywhere in the page	Search for terms in the whole page, page title or web address, or links to the page you're looking for.
SafeSearch:	Show explicit results	Tell SafeSearch whether to filter sexually explicit content.
file type:	any format	Find pages in the format that you prefer.
usage rights:	not filtered by licence	Find pages that you are free to use yourself.
